

MPP FREELANCE - Support Plans

You shouldn't have to drop what you're doing because there is a problem with your site

Your website is never done and needs to be looked after like a well-maintained machine. They need to be updated technically, visually, and with content, along with performing security checks so you and your clients are not without access to your business.

The best way to take care of your website is with a **Monthly Support Plan** that provides a number of services including ongoing support, backups, monitoring, as well as a secure environment.
